

Game Central – How to enter game results

There are 5 sections that need to be filled out. Each section is explained below

- 1) Pre-Game
- 2) Game Score
- 3) Scoring Details
- 4) Penalties
- 5) Goalie Shifts

Once you've logged into Game Central and clicked on your team, scroll to the bottom and choose the game you need to report on.

TEAM GAMES

Date	Time	Home Team	Away Team	Location	Division
Oct 17	6:00 PM	Cumberland	Casselman-Embrun	Embrun Arena	U16-10
Oct 15	6:00 PM	Casselman-Embrun	Cumberland	Ray Friel Complex (1)	U16-5

[Manage Roster](#)

Choose **Edit Pre-Game**: The Pre-game area allows you to specify the lineups for the game (i.e. the players and coaches in attendance). This is done by pulling in the rosters of each team and then adjusting the attendance based on what is reported on the game sheet.

SCHEDULE INFO

Oct 15	6:00 PM	Casselman-Embrun	Cumberland	Ray Friel Complex (1)	U16-5

PRE-GAME

Not yet completed.

[Edit Pre-Game](#)

Choose **Bulk Load Line Ups from Default Roster**. There is presently a bug with SportsHeadz where adding players ad-hoc to a team (affiliate players) is not possible. If an affiliate player is required, please add it to the roster before proceeding further. If the visiting team has an affiliated player, please have their manager add the player to their roster.

Edit Game Settings

Go through the list of players and coaches from each side and enter them based on information from game sheet. Everyone is default as **Playing**, so unselect the ones who didn't play.

- For goalies, mark starting goalie as **Starting** and back up goalie as **Playing**.
- For players/coaches, only choose between **Playing**, **Suspended** or **Absent**.
Reminder that suspensions officially tracked through TTM, and not SportsHeadz.

...	27	Forward	Playing		...	12		Playing	

Click **Save** when finished. This will return you to the Game Details main screen, now showing the participants.

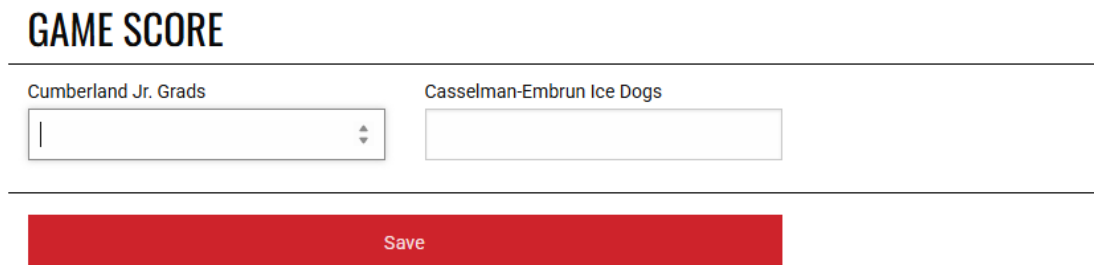

After you've clicked **Save**, to return to the previous menu and continue entering game details, click on the game at the top.

The next step is to report final scores, goals, and penalties. This is done in the **In-Game** section. Scroll down in the Game Details screen and click on the **Edit In-Game** button as below:

To enter the final score, click on the small cog on the left side of the window as shown below. Click **Save** when done

Next step is to enter the scoring details for each team:

- Time of the goal
- Strength (whether it was on the **Even**, **Powerplay** or **Short-handed** if known)
- Scorer
- Assists (if any)
- Opposition goalie who was in net when the goal was scored.

Save

Click on **Save** to add the goal to the game details and return to the main screen where the goal will now be visible. Repeat this for every goal scored by both teams. Review these details to make sure they are accurate. If a change is required, click on the appropriate cog icon for the goal in question to edit it.

Now enter the details for each penalty:

- Offender: Player who earned the penalty.
- Length: How many minutes the penalty was assigned by the referee.
- Infraction: What the penalty was for. If the infraction isn't shown, select **Other** and then manually type the appropriate code.
- Off Period & Time: When the penalty was earned.
- Start Period & Time: When the penalty starts on the clock. This is the same as the previous field unless there were already two penalties, in which case this will start when the first player's penalty is finished.
- On Period & Time: When the offending player has returned to the ice; either when their penalty was served or when the opposing team scores a goal.
- Served By : Who sat out to serve the infraction.

Save

Click on **Save** to add the penalty to the game details and return to the main screen where the penalty will now be visible . Repeat this for every penalty by both teams. When finished, again review these details to make sure they are accurate. If a change is required, click on the appropriate cog icon for the penalty in question to edit it.

The final step is to enter the time the goalies were on the ice. For all of the goalies who played, enter the time when they went on the ice to start, and when they came off. This will be used for the goalie goals against average in the statistics. Usual entry would be Period 1 - 10:00 mins for **On Period** and Period 3 - 0:00 mins for **Off Period** (if goalie played the full game - U10-U13).

Once your done entering all the information, do a final review and you can Exit Game Central.

Errors: As the website is still under development, you may get errors like the one below. If you get one, click the Back button on your browser and try to enter the information again. If it still persists, then trying at a later time is another suggestion. If you still can't enter the information, let your Division Convenor know.
